Int. J. Pres. Ves. & Piping **42** (1990) 391–393

CONTENTS OF VOLUME 42

Number 1

Fatigue Crack Growth in the Nozzle Corner of a Pressure Vessel . . . 1
GAO ZENGLIANG, XU LIANGFENG & ZHANG KANGDA
(People's Republic of China)

Delayed Crack Propagation in a Steel Pressure Vessel Due to Thermal Stresses . 15
I. FINNIE, W. CHENG & K. J. McCORKINDALE (USA)

Strength Analysis and Structural Optimization of U-Shaped Bellows . . . 33
LI YOUNSHENG & SHENG-SHUIPING (People's Republic of China)

Minimum Mass Design of Poppet Cut-Off Valves 47
J. KOWALSKI (Mexico)

Natural Frequencies of U-Shaped Bellows 61
LI TING-XIN, GUO BING-LIANG & LI TIAN-XIANG
(People's Republic of China)

Approximate Stress-Intensity Factor Solutions for Nozzle Corner Cracks . . 75
CHAI GUOZHONG & HONG QICHAO (People's Republic of China)

The Rupture of a Thin Ligament Associated with a Part-Through Crack in a Plate Subject to Tensile Deformation 97
E. SMITH (UK)

The Integrally Hydroforming Process of Spherical Vessels 111
SHIHONG ZHANG, Z. R. WANG & TAO WANG
(People's Republic of China)

Technical Note

Experiments on Steel Specimens with the Intention of Studying the Growth of Short Fatigue Cracks 121
L. A. BOSTRÖM (Sweden)

Announcements 129

Int. J. Pres. Ves. & Piping (**42**) (1990)—© 1990 Elsevier Science Publishers Ltd, England.
Printed in Great Britain

Number 2

Editorial (Tribute to Professor Kussmaul) 135

Stress Singularity at the Bottom of a V-Notch in the Inner Surface of a Circular Pipe under Torsion 137
T. TSUJI, N. NODA, T. SHIBUYA & T. KOIZUMI (Japan)

Design Calculations for Suspended Vertical Equipment 157
GU ZHONG LEI (People's Republic of China)

Analyses of Circumferential and Axial Flaws of a Pressure Vessel Under PTS Loads and Failure Estimate on the Basis of Irradiated RCT Test Specimens . 169
P. RAJAMÄKI, R. AHLSTRAND & J. RANTALA (Finland)

Elastic Stress Solution for a Ring Subjected to Point-loaded Compression . . 185
DE-LIN MA (People's Republic of China)

Tolerable Flaws for the Leak-before-break Criterion 193
W. SETZ & L. GRÜTER (FRG)

The Stress-Relaxation Behavior of Type 304 Stainless Steel 203
M. YAMASHITA & Y. WADA (Japan)

Predicting Crack Arrest in a Nuclear Reactor Pressure Vessel during a Hypothetical Pressurized Thermal Shock Event 217
E. SMITH (UK)

A New Mechanical Model for Rectangular Structures Subjected to Internal Pressure 237
ZHAO-JING ZENG, YING-ZHENG GUO & JIA-JU GAO
(People's Republic of China)

Thermal Shock Problem of a Hollow Circular Cylinder with a Crack. . . . 247
NAOTAKE NODA, YASUHIRO MATSUNAGA &
HIROSHI NYUKO (Japan)

Announcements 259

Number 3

A Simplified Method of Evaluating Ratcheting in Bellows and a Test of its Validation 263
T. YAMASHITA, K. TSUKIMORI, M. NAKAMURA,
K. IWATA & A. IMAZU (Japan)

Computation of Leak Areas of Circumferential Cracks in Piping for Application in Demonstrating Leak-Before-Break Behaviour 287
S. BHANDARI, C. FAIDY & D. ACKER (France)

Experimental Observation of Crack Propagation in 6063-T6 Al-Alloy Under Constant Amplitude Loading 303
RAGHUVIR KUMAR (India)

Transient Elastodynamic Boundary Element Formulations Based on the Time-Stepping Scheme 317
M. TANAKA & T. MATSUMOTO (Japan)

The Results of a Round-Robin Exercise on Pressure Vessel Defect Assessment . 333
P. HOPKINS (UK)

Approximate Expression of the Maximum Value of the Stress Intensity Factor (SIF) of Oblique Nozzle Corner Cracks 353
CAI SHUTAO & WANG RUIJIN (People's Republic of China)

Fatigue Crack Growth in Multi-Pass Butt-Welded Joints of Mild Steel . . 363
GIANNI NICOLETTO (Italy)

On the Evaluation of Crack Propagation Velocity by the Observation of Stress Waves Created during Tensile Fracture 379
T. JINGU & K. NEZU (Japan)
